

## VIND2010 Conference and Exhibition

15-17 September, Swedish Conference and Exhibition Centre,  
Gothenburg

### About VIND2010

The VIND conference and exhibition has since its start in 1984 developed into the largest wind power conference in Sweden. Returning annually the location alters between our three largest cities, 2010 the turn has come to Gothenburg.

Expanding strongly every year, VIND2010 expects around 1200 visitors in total and approximately 100 companies represented in the exhibition. Two days of seminars followed by real life study visits on the third day, and social gatherings in the evenings.

### Target groups

Representatives from all corners of the Swedish wind power industry will be present, along with a number of guests from our neighboring countries. Main target groups are manufacturers, investors, government and non-government organizations, law and insurance agencies plus various consultants.

### Language

Official language is Swedish, but some presentations might also be made in English, Danish or Norwegian. No translation will be available, delegates are presumed to understand all four languages.

### Program

A call for abstracts has been made via the conference web page. Suggestions for seminar and/or poster topics are accepted until the 9<sup>th</sup> of March. If you understand Swedish, please follow the instructions at [www.vind2010.se](http://www.vind2010.se). For English speakers suggestions are accepted via e-mail, please send your abstract and proposed speaker to [yt@svenskvindenergi.org](mailto:yt@svenskvindenergi.org). Make sure the text is ready for publication (in

the program magazine) and includes maximum 250 words. What abstracts are accepted will be announced in the beginning of April.

### **Exhibition**

A hall of 4000 sqm hosts approximately a hundred exhibiting companies, in the context of coffee, lunch and mingle breaks. The perfect place for networking, and a perfect way of participation for those who do not understand Swedish well enough to take part in the seminars. Do not miss out on fraternizing with the core of the Nordic wind power community, either as exhibitor or exhibition visitor.

**About the organizer - Swedish Wind Energy Association**

As the national trade association, Swedish Wind Energy Association looks after the financial interests of its members by acting as the collective voice of the industry in society. Our main aim is to promote the development of the market for wind power in Sweden. The goal is to make sure that wind power is developed to its full potential and contributes to long-term sustainability for Sweden.
